Introduction

In this issue of weekly analysis journal we analyzed the hidden hands behind the mysterious attacks in different parts of the country and also the latest crimes of Israel in Gaza strip.

About 13 years ago when American and foreign troops invaded Afghanistan, hopes emerged with Afghans that the last decades instability will come to an end; but unfortunately the invasion of the foreign troops was in continuation of the past intelligence games and proved that the elders of Afghans killed one by one in the past decade and this conspiracy is still going on, which were part of intelligence war and complicated goals of war. The silence against these attacks within and outside Afghanistan shows the complication of the situation. Who are players of such games and why are they not exposed?

In the other hand, In the Middle East in continuation of the past violations and instabilities, Israel attacked Gaza once again and committed crimes against human being. Behind the scene of these attacks were provocations of western powers and their puppets in the region; but despite of that Hamas responded strongly to their crimes. What are the causes behind the will for killing children and civilians in Gaza by Israel and what steps are necessary to be taken?

Complicated intelligence war and the latest incidents

Since American invasion of Afghanistan in 2001, a course of attacks took place in different parts of the country while none of the involved parties in the Afghan war, ranging from international security forces to anti-government insurgents claimed responsibility and doer of such attacks remains unknown.

In these attacks targets are being targeted cunningly which shows the complication of intelligence wars behind the scene. The quality and the targets of this kind of attacks show that these assaults were taking place in past 13 years in accordance with a preplanned scenario.

This context is more like that in Iraq after invasion of America in that country, and exposed after their withdrawal from Iraq.

The role of outsiders in proxy wars

The different parties in the current war in Afghanistan are related to a party, but the general public knows Taliban as the responsible. The western intelligence carrying out their attacks under the name of Black Water and pursue their goals, and the most incidents show that western intelligence have their part in the most insurgency networks and use them for achieving what they want.

Some of the involved parties in these proxy wars are related to each other. Even today when Pakistan (the strategic partner) of America threatening Afghanistan by air and land attacks is in communication with their western allies and this represent just a part of the widespread involvement of different parties in Afghanistan's wars and instabilities. Along many more cases of interventions of Pakistan the continuously attacks on the eastern provinces of the country

and the silence of foreign troops in Afghanistan gives some signs for knowing of some secrets of this conspiracy.

Besides Pakistan, a number of other countries are also involved in the proxy wars in Afghanistan. Russia and Iran with the west bargain over Anti-Drug strategies with America and along with other demands of them it caused their involvement here. On the other hand China has also been not neutral; but the America and west was according to Karzai as whom who encourages thief for stealing and the house owner for saving his house. And beside of their other policies they use all the involved parties on the level of the whole country and dangerous incidents in all parts of the country as the latest one which had tribal aspect in Herat.

Propaganda and mysterious attacks

The last two months were bloody for Afghan nation. A heavy car bomb killed and injured more than one hundred people and a few days later 15 civilians killed in another incident, and the responsibility for both incidents was not claimed by any party; even the Taliban also condemns such incidents. Who are carrying out these attacks and for which reasons and what they achieve? Or why there is not the strong will for knowing and publicizing of the doers of these attacks.

Afghans are sacrifices in last 13 years of such attacks, which are carried out for pursuing goals by intelligences and propagating in favor of them in all the media on which they have strong influence.

In Afghanistan one of the main problems is that the management of the general public through media is being managed by the westerns and they are managing the conspiracies and intelligence attacks as they want to be. However there are several analysis about these incidents; but the doer of such crimes are hide from scarified nations; even there are not minimum information being published about the goals and doers of such incidents.

In last years from the quality of such attacks appeared that intelligence targeting and then use these attacks for their propagandas and raising reactions. The quality of such attack is opposite of what happens in other world, here the winner and loser of such attacks are not known.

The game being played about prisoners

A few days back about 15 civilians took out of their bus and all from a specific tribe have shot and killed. This incident besides perusing the goal of tribal disputes among people was also related to the bargaining over the releasing of prisoners detained by American forces.

President Karzai in the last few years of his government tried to release some innocent Afghans from prisons. Mr. Karzai last year for first time called the Bagram bay as the factory of Taliban. This position of the president was however criticized by Afghans but since Karzai has been working more than one decade with America and know better their conspiracies and plans to which he had some points occasionally.

Since president Karzai positioned against the westerns anti-Afghan policies they also opposing by this kind of attacks, diplomacy and propaganda. The latest events shows that whenever such attacks taking place after that the media which are being supported and funded by foreigners follows these kind of attacks by heavy propagandas in favor of whom they are related to.

The latest incidents were linked with that measure of the president in which number of innocent prisoners has released from jails who were detained by American forces and were prisoned by them for years without any trail for their own plans.

If these propaganda does not have intelligent goals, why they claim that only the released prisoners can carry this kind of attacks? Whether they find such a power short after the release from the jail? If there are some Talib fighters in the released prisoners first of all this will be difficult for them to join Taliban in the field; but if they do whether without these fighters the other cannot carry out such attacks?

If the releasing of prisoners is as dangerous as they say, than why America released the prisoners of Guantanamo bay? The fact is that bringing the prisoners into Guantanamo jail and then their releasing all were part of the scenario that America implements to achieve their goals. The prisoners in Bagram jail were also being used for this kind of conspiracies.

The position of Hamid Karzai over these incidents

Hamid Karzai however was supported by America to come to power, but in last few years appeared that he was de-authorized by foreign conspiracies; but he was trying to deliver the message occasionally in his speeches to Afghan people about such conspiracies. However after his government period he would be facing threats because of his views on American policies for the region.

On the other hand, Hamid Karzai himself is targeted by such conspiracies, and beside other incidents some of his close relatives have been targeted; now he knows who is behind these attacks and therefore opposes American strategies for Afghanistan.

President Karzai was involved in interactions and close work with Americans in past 13 years; therefore he can be the first level person who is aware of the scenarios. This is not that much simple that some of the political analysts say that the decree of the president was for his personal demands, the president really knows better than the political analysts.

Again the crimes of America and Israel in Gaza

Incentive of Israel for killings in Palestine

Gaza once again Gaza witnessed bloodshed of its innocent inhabitants. Gaza witnessed brutal crimes of Israel and resisted. Finally after three weeks of resistance more than 1800 innocent civilians of Gaza martyred and thousands of them injured and the most city of Gaza has been destroyed while the whole world watched them, especially Islamic world. Israel was trying to kill as more children as they could because they had a pretext for this in their fake Book:

“God says: Since the people of Palestine got revenge from Israel and had enmity from the past times and were trying to eliminate them, therefore I will eliminate Palestinians. Yes, I will eliminate all those who lives in Palestine territory. Hazqial 25”

Based on these fake documents they kill Palestinians with the claim that this is the decision of the god through a book. Ben Gorion has said:

Palestinians must retune to their homes... the elders will die and the young generation will forget it.

Musha Dyan has said once that: “Palestine does not exist, they were never existed” and Obama in justifying of killing civilian children says: “Israel has the right to defend”

Now the western media strongly tries to introduce Muslims to the world as cruel as they want to eliminate all the non-Muslims; but the fact is neglected in media, In Israel teaches their holly book only in 6 years of age that this territory is From Egypt to Shatte Azim yours. These ideas grantees the great Israel plan and also occupying more lands of Arabs currently and in future.

The background of Israel crimes in Gaza

This time is not the first time that Israel attacked Gaza; the latest attack before these oppressive, three years ago. Israel attacked Gaza in 2008 and Palestinians called that bloodshed as Gaza's mass killing. That war which was named by Israel as watered Snap and continued for three months from December 2008 to January 2009 Israeli criminals imposed heavy casualties in one day over the people of Gaza which were first time after Arab and Isreal war in 1947, finally announced one part ceasefire, and blocked all the ways towards Gaza even prevents importing goods for reconstruction.

In that war Israel used banned weapons which contained white Phosphors, at the beginning of that attack more than one hundred ton of bombs and rocket shield on Gaza. While Gaza is one of the populated areas in the world, now we see they repeated that action again.

The United Nations in that time accused Israel with widespread violation of human rights. However UN's report which is known as Goldstone report and prepared by a Jewish and called Israel as the big violent of human rights, but this condemning did not had any benefit for the people of Gaza. Gaza is still blocked and its people live under heavy economic sanctions. The only way from which nourishment can be delivered to Gaza were tunnels from Egypt's territory which were destroyed after Al Sisi came to power in Egypt.

If the crimes of Israeli Jewish against 2008 were prosecuted internationally, if the puppet regimes in Islamic world were opposing Israel, Israel would not be encouraging to attack Gaza again and kill civilians. Obama says Israel has the right to defend, it means Israel has the right to kill children and civilians.

The opportunity for breaking Gaza's blockage

The Hammas can benefit their resistance in this war and the opportunity for pressurizing Israel. Gaza strip is under the blockage of Israel for years and even constructive materials are banned to be entered to this region. Gaza blockage was considered as systematic mass killing of Gaza in past years. Now when Israel is facing failures in achieving their goals and are under pressures for being criticized by general public because of killing of children and civilians and that is clear that they cannot use more powerful pressure against the people of Gaza as they used now, Hammas can insist on breaking the blockage of Gaza as a precondition for negotiation.

If Israel has the right for defense, the people of Gaza strip have the right to be released from the jails of Israel and Egypt. Islamic countries must seriously support this demand of the people of Gaza and save them from the blockage.

Reaction of Afghans

All over the world the people raised their voices against crimes of Israel, but in Afghanistan the civil protests were weak, but an Afghan soldier expressed his anger and responded violently to Israel crimes by killing a high level American General and wounding some others. This incident shows that neglecting the widespread crimes against Muslims can be responded violently by the people that America expects their friendship.
